

Unipart Named Overall Winner of the European Supply Chain Excellence Awards for 2013.

Unipart Aftermarket Logistics, part of the Unipart Group, has won two awards at the European Supply Chain Excellence Awards for 2013.

With Jaguar Land Rover, UAL was named overall winner. UAL also won the Automotive, Aerospace and Defense sector award for its innovative supply chain solutions for Jaguar Land Rover. The award highlighted the positive impact on the customer experience.

The 17th European Supply Chain Excellence Awards in association with PwC took place on 6th November in London. Hundreds of leading Supply Chain and Logistics Directors were in attendance at the awards, which are renowned as a trustworthy measure of the most outstanding examples of best practice.

The awards recognise outstanding achievement in supply chain management across Europe and highlight the importance of, and the opportunities offered by, excellent supply chain management.

Unipart Aftermarket Logistics focuses on delivering supply chain excellence for a wide range of clients including Jaguar Land Rover and Mobis. The specialist division of Unipart, one of Europe's leading manufacturing, logistics and consultancy groups, provides a comprehensive aftermarket parts service. It includes sourcing, storing, processing and despatching parts from its global warehouses worldwide. The aim is to ensure we have the right part in the right place at the right time, 24 hours a day, 7 days a week.

To provide world-class supply chain performance UAL manages the global, end-to-end supply chain for Jaguar Land Rover using its proprietary Global Control Centre. The live data dashboards of the Global Control Centre present the performance for each critical supply chain function in a standardised view enabling finger-tip control of the entire global supply chain.
